School Clubs or Organizations

The School Principal shall implement procedures to annually notify all parents or guardians of all school-sponsored organizations and clubs in which students may participate and of the right of the parent or guardian to prohibit their child's participation. Notification to parents and guardians shall be provided annually and shall include the name of the organization or club, the mission or purpose, name of faculty advisor and a description of past or planned activities. Any membership or financial requirements for a student to join or become a member of the activity, organization or club shall be included in the information provided.

Notification shall also include a parental refusal or opt out form which grants the parent an opportunity to refuse their child's participation in the club or organization.

Written parental permission will be required prior to student participation in any clubs or organizations begun during the school year.

Such organizations and clubs shall be under the direction and supervision of school personnel and in conformity with the policies of the Board. Any fund raising projects must have prior Board approval.

Student Activities

All student activities must be sanctioned by the administration of the school and under the direct supervision of the administration and faculty.

Students are subject to the regulations of school authorities at all school sponsored functions such as athletic contests, class trips, etc.. A teacher supervising an extra curricula activity is expected to clear the building of students and secure the area prior to leaving. The teacher in charge shall remain with the group until all students have left the campus.
